FROM TÜRKIYE TO INTERNATIONAL MARKETS

Fresh produce.
Flexible sourcing.
Global connections.

A Türkiye-based export partner connecting international buyers with fresh fruits and vegetables from producing regions across the country.

Nationwide sourcing | **Buyer-led packing** | **Export coordination**

01 / OUR COMPANY

One source of contact. Many growing regions.

Arden Fruit is a Türkiye-based fresh produce trading and export company registered in Kocaeli. Our operations draw on producer connections across multiple agricultural regions, with sourcing and preparation organized around each buyer's requirements.

We do not depend on a single farm or permanent packing plant. Where needed, packing and related services are arranged through suitable third-party facilities. This flexible model helps us consider different crops, harvest windows and destination needs.

OUR ROLE

To coordinate suitable produce sourcing, packing arrangements, commercial communication and export-related steps for each order.

MARKETS WE WORK WITH

Turkic republics · Gulf countries · European markets
